

THE ENGLISHMAN

Call me anytime tomorrow afternoon, I plan to be in all day.
I plan to be out all day.

What do you mean when you say let's make love?
I know what you mean, but do you really think you can get out of it so easily?

If that man who answers your telephone is really your butler,
 how come he calls you "love"?
How do you manage to get out so much?

I write to you the minute I get to New York.
I'll forget you.

Write me and let me know everything you are doing.
I hope you'll forget me.
